Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 8-10 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by CAS Registry # 35928-32-6.

Registry # 35928-32-6 is the following compound, which was entered into the STN database on 16 November 1984:

The above compound reads on the instant claims when the claimed formula is I8, when n=0 and wherein: R¹ is NR²R³; R² is a hydrogen atom; R³ is C=OR⁴; and R⁴ is a hydrogen atom.

3. Claims 8-10 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by CAS Registry # 73757-72-9.

Registry # 73757-72-9 is the following compound, which was entered into the STN database on 16 November 1984:

Art Unit: 1744

The above compound reads on the instant claims when the claimed formula is II, when $n=0$ and wherein: R^1 is NR^2R^3 ; R^2 is a hydrogen atom; R^3 is $\text{C}=\text{OR}^4$; and R^4 is a hydrogen atom.

4. Claims 8, 9, and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by CAS Registry # 115269-93-7.

Registry # 115269-93-7 is the following compound, which was entered into the STN database on 16 July 1988:

Art Unit: 1744

The above compound reads on the instant claims when the claimed formula is I8, when $n=1$ and wherein R^1 is an isothiocyanate group.

5. Claims 8-10, 14, and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Akatsuka et al (abstract of JP 63-017806).

Akatsuka et al teaches that the compound below was known as of 25 January 1988.

The above compound reads on the instant claims when the claimed formula is I8, when $n=0$ and wherein: R^1 is NR^2R^3 ; R^2 is a hydrogen atom; R^3 is $C=OR^4$; and R^4 is a hydrogen atom.

Claim Objections

6. The use of the trademark/tradenames diuron, endothal, dichorophen, etc. has been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

Allowable Subject Matter

7. Claim 23 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 11-13 and 15-21 are allowed.

Response to Arguments

9. Applicant's arguments filed 21 April 2004 have been fully considered but they are not persuasive.

10. In response to Applicant's argument that the CAS registry numbers cited in the office action do not satisfy the written description and enable requirements, the Examiner notes that the Stockel ("The Preparation of Dehydroabietane-1-Amine" and Rane et al ("New Strategies for the Hofmann Reaction") references, both cited by Applicant, illustrate how one of ordinary skill in the art may prepare these amines. Thus, at the time of the instant invention, it was known how to make the claimed compounds.

Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

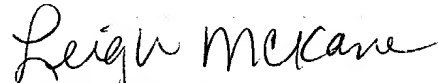

Art Unit: 1744

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
